Re: Jose L. Perez

To Whom It May Concern:

This is to recommend Mr. Jose L. Perez for graduate studies in the University at Buffalo. I admire his persistence and determination, for he is now being considered here at the University for studies towards his PhD! He is an excellent candidate for graduate school. I have known his family when they came to the Buffalo, New York area from Venezuela since the 80's. I met Jose about five years ago.

I know Mr. Perez to be sincere, honest and determined. A while back he came to my office for advice on how he can continue his studies and he followed my advisement to speak to the department in which he wants to study in. It is a pleasure for me to know his persistence and now I am writing this letter on his behalf.

I recommend Mr. Jose L. Perez highly, no doubt he will add to the field of education, I believe he will contribute greatly to the program and the University.

If any further information is necessary, contact me at 716-645-3072

Sincerely,
